Natural Odor Eliminator

commercial

A little science,
a little nature,
a whole lot of fresh air.

Destroy odor on a molecular level.

Non-toxic Fresh Wave® IAQ natural odor eliminators effectively remove both organic and inorganic malodors from the air, laundry, carpet, upholstery and other surfaces. Notice we didn't say mask odors with citrus scents or flowery perfumes like many so-called deodorizers. Fresh Wave IAQ products chemically bond with odor causing molecules and eliminate them completely without leaving a fragrance. In fact, the only thing left behind is the sweet smell of nothing at all.

Natural
Ingredients:

Water

Lime

Pine Needles

Aniseed

Clove

Cedarwood

Fresh Wave IAQ odor eliminators are made with natural, non-toxic and biodegradable active ingredients. This makes Fresh Wave IAQ products safe to use around people and animals.

Air & Surface Liquid

For rapid, targeted odor control, turn to Fresh Wave IAQ Air & Surface Spray. It instantly bonds to and eliminates odor molecules in the air and those that have penetrated and/or are resting on surfaces.

If you smell something, it's not from OMI.

For more than two decades, OMI Industries has grown as a global leader in industrial and commercial odor control. OMI specializes in natural odor control solutions that are effective, non-toxic, biodegradable and 100% masking agent free.

Powerful and natural, OMI products and distribution systems solve a variety of organic and inorganic odor control issues, in a wide range of materials, locations and applications without the use of citric or flower perfumes.

OMI tackles year-round odor problems due to a production process, seasonal odor problems due to temperature, occasional odor problems due to a particular project or any other odor challenge you face.

Landfills to hotel rooms, oil refineries to municipal wastewater facilities, even off-the-shelf products, wherever there's an unwanted odor, OMI can neutralize it.
